

Application No: 10/669,751
Attorney Docket: 1-23415

REMARKS

The claims have been amended to be drawn to an actuator comprising a motor. The actuator member is operatively connected to the motor for moving the actuator member in the extended direction and the retracted direction. None of the cited references discloses or teaches an actuators as claimed. Consequently, the claims should be allowable as presented. Favorable reconsideration of the claims is respectfully requested.
